

FAHEEMA TAMTON

AI / Machine Learning Engineer

+91 7902912307 | faheematom@gmail.com | Kannur, Kerala | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [AI Blogs](#)

PROFESSIONAL SUMMARY

AI/ML Engineer with experience designing, training, evaluating, and deploying intelligent systems using Machine Learning, Deep Learning, Computer Vision and NLP. Skilled in developing AI-powered applications with Generative AI, Agentic AI, LLMs, VLMs, OCR, RAG, TensorFlow, PyTorch, and Python for real-world automation and healthcare challenges.

TECHNICAL SKILLS

- **Programming & Development:** Python, Git/GitHub, VS Code, PyCharm, Jupyter Notebook
- **Machine Learning & AI:** Machine Learning, Deep Learning, CNNs, RNNs, Transformers, Generative AI, Agentic AI, Feature Engineering, Model Fine-Tuning, Prompt Engineering, LLM Integration (Google Gemini, OpenAI API)
- **Computer Vision & NLP:** YOLO, OpenCV, OCR Pipelines, Object Detection, Image Processing, Natural Language Processing, NLTK, spaCy
- **Frameworks & Libraries:** TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, Flask, FastAPI, Matplotlib, Seaborn
- **Data Engineering & Analytics:** Data Preprocessing, ETL Pipelines, Structured Data Extraction, RESTful API Design
- **Deployment & Tools:** Roboflow, Kaggle, Google Colab, Docker

AI / ML PROJECTS

Easy Heal — Vision-Language Model-Based Healthcare Platform — AI, Qwen2 VL, VLM, LM Studio, DL, CV [GitHub](#) [LinkedIn](#)

- Developed an AI-powered healthcare system integrating Vision-Language Models (VLMs), multimodal inference, and NLP-based medical entity extraction from handwritten prescriptions with Django-driven medicine scheduling, real-time reminders, and patient medication management.

InMyPDF — Agentic Multimodal RAG System — Python, FastAPI, RAG, FAISS, LangChain, OpenAI [GitHub](#) [LinkedIn](#)

- Developed an Agentic Retrieval-Augmented Generation (RAG) system for multimodal PDF question answering using FastAPI, LangChain, FAISS, and OpenAI LLMs.
- Implemented semantic chunking, vector embeddings, FAISS retrieval, and grounded LLM generation to deliver context-aware responses with reduced hallucinations.

SoulMirror — ML, Scikit-learn, Random Forest, Python, Flask [GitHub](#) [LinkedIn](#)

- Developed an AI-powered MBTI personality prediction platform using Flask, NLP, and a Random Forest classifier, incorporating data preprocessing and feature engineering to classify users into the 16 personality types from questionnaire responses.

Planify AI (Ongoing) — Node.js, Express.js, SVG, Google Gemini API [GitHub](#)

- Developing an AI-assisted architectural planning system that converts natural language prompts into structured residential layouts using modular planning, SVG blueprint generation, and an agentic planning engine.

Medicine Blister Text Extraction — Apollo Pharmacy — VLMs, PaddleOCR, EasyOCR, Roboflow

- Developed an AI-powered medicine blister recognition pipeline integrating OCR and Vision-Language Models for automated text extraction and expiry date recognition, with dataset annotation, preprocessing, and VLM-OCR benchmarking using Roboflow.

Object Detection for Semi-Humanoid Robots — I HUB Research & Robotics Pvt. Ltd. — Roboflow

- Handled large-scale image dataset annotation, augmentation, and preprocessing, implementing YOLO-based object detection for semi-humanoid robotic vision with optimized training and inference pipelines, achieving 80% mAP at ~40 ms per image.

PROFESSIONAL EXPERIENCE

AI / ML Engineer Intern | I HUB Research & Robotics Private Limited

Dec 2025 – Feb 2026

- Contributed to AI/ML and Computer Vision projects within a 3-member team for real-world automation applications.
- Processed and annotated 25,000+ images for YOLO-based object detection, optimizing training and inference pipelines to achieve deployment-ready performance.
- Developed OCR, data pipeline, and robotic vision solutions for semi-humanoid robotic systems.

Python Intern | Kiwisoft Solutions LLP

Oct 2024 – Mar 2025

- Developed backend modules for Python web applications by implementing RESTful APIs, authentication, relational database operations, and UPI payment integration.

EDUCATION

Post Graduate Diploma in AI & Machine Learning — *I Hub School of Learning*

Jun 2025 – Feb 2026

Bachelor of Science in Computer Science — *Kannur University, Kerala*

Jun 2022 – Mar 2025
